PROFESSIONAL SUMMARY

Java Backend Developer with **3+ years of experience** building RESTful APIs and microservices using Spring Boot. Skilled in backend automation and full-stack development. Originally from a Civil Engineering background, I bring strong problem-solving skills and a passion for technology. Quick to learn and adapt, with a focus on writing clean, efficient code and delivering reliable solutions.

- **Proficient** in **Java, Spring Boot, SQL,** and **major professional tools (Kibana, Kafka et.,)**, delivering RESTful APIs and microservices using spring boot framework. Knowledge in **CI/CD pipeline** using **Jenkins, Docker, and Kubernetes**, enhancing scalability through **Git** version control.
- Expertise in **debugging, and troubleshooting**, maximizing efficiency by automating testing workflows with **Unit test**, and conducting ETL testing **API testing** via **Postman**.

PROFESSIONAL EXPERIENCE

Senior Systems Engineer – INFOSYS

April 2022 – Present

- Responsible for understanding and implementing **microservice architecture principles**
- Developed and maintained **RESTful APIs** and **microservices** using **Spring Boot** for Telecommunication services.
- Designed and documented APIs that allows services to communicate with each other and with external systems.
- Involved in **scaling** of microservices to handle varying loads. Involved in implementation of **fault** tolerance and **error handling mechanisms**
- Integrated security features like **OAuth2** and **JWT** for **API security** and user authentication. Conducted **Junit5** testing for microservices to ensure its functionality.
- Developed and maintained **Kafka** to handle real-time data processing of events from multiple sources.
- Developed automated test cases using **JUnit** and **Mockito** to maintain high-quality code standards. Implemented **CI/CD** pipelines for automating deployment process.
- Worked closely with **clients** to gather requirements and translate them into technical specifications for implementation.
- Mentored junior engineers in advanced concepts, fostering professional development within the team.

Systems Engineer – INFOSYS

Internal Demo Project

Jan 2022 – Mar 2022

- Developed and maintained **RESTful APIs** and **microservices** using **Spring Boot** for Telecommunication services.
- Designed and documented APIs that allows services to communicate with each other and with external systems.
- Involved in **scaling** of microservices to handle varying loads. Involved in implementation of **fault** tolerance and **error handling mechanisms**
- Created 8 micro services by using **Spring boot** framework
- Live Demoed Implemented features to the client and managers.
- Unit Testing, Performance testing using JMeter, Kafka integration, API testing using postman, Redis cache
- Used IDEs IntelliJ, STS, Eclipse and vs code.

KEY ACHIEVEMENTS

Insta Award for Analytical Skills - link

Awarded the prestigious Insta Award for Analytical Skills, Sincere, proactiveness and contribute to positive work environment.

SKILLS

- **Programming Languages**: Java 8, Core Java, Advanced Java
- **Framework**: Spring Boot, Drop wizard
- **Containerization**: Docker, Docker Desktop, Rancher Desktop
- **CI/CD Tools:** Jenkins
- **Version Control**: Git, GitHub, Bitbucket
- **Monitoring Tools**: Grafana, Kibana
- **Databases**: MySQL, PostgreSQL
- **OS Administration**: Windows
- **API Dev**: REST APIs, Swagger
- **Performance test**: JMeter, Postman
- **Microservices** and serverless frameworks, techs
- **Testing & Automation**: JUnit test
- **Agile Project Management Tools**: Jira

TOOLS & TECHNOLOGIES

- **Web Dev**: HTML, CSS, JavaScript
- **Testing Frameworks**: Junit test
- **Creative Tools:** Figma

EDUCATION

- **Bachelor of Technology - NRI Institute of Technology**
  June 2017 – July 2021
  - Agiripalli, Andhra Pradesh
- **Diploma - *Nuzvid Polytechnic***
  June 2014 – July 2021
  - Nuzvid, Andhra Pradesh

CERTIFICATIONS

- Infosys certified Java SE8 Developer
- Infosys Certified L2 Junior Java Programmer
- PostgreSQL Developer
- Infosys Certified Python Associate
- Introduction to Cyber Security in SDLC
- Generative AI Landscape

PERSONAL PROJECTS

- Personal portfolio using html css javascript
